2352 Autumn Dr Oceanside CA 92056

Dedicated, professional front end developer and web designer with over 10 years of experience in the web industry. A highly creative designer with excellent communication and problem solving skills. Eagerness to learn and collaborate with team members and clients to accomplish goals.

Jan 2007 - Present **Neoverve Inc.**

Front End Developer/Web Designer

Created and customized Magento and Wordpress themes, consulting on various aspects of client Magento e-commerce and Wordpress websites, as well as troubleshooting and support for hosted client websites. Other tasks ranged from creating wireframes and comps to implementing UI/UX designs into production e-commerce sites. Other tasks include maintaining and updating in-house web design projects and WHMCS support system.

Aug 2006 - Dec 2006 **SearchFit/Rightway Gate**

Web Designer

Created SEO friendly website templates from Photoshop comps to HTML using the company ecommerce platform, SearchFit. Maintained and updated in-house ecommerce websites to achieve marketing and SEO goals.

Jul 2003 - Aug 2006 **Peak Wireless Inc./VehicleTrack**

Graphic Designer/Web Designer

Created and maintained multiple company websites including peakw.com, vehicletrack.com, mptwo.com. Other responsibilities included creation of various print marketing materials such as business cards, onesheets/brochures, and presentation slides. Also implemented custom themes to Rastrac mapping software.
